

InnovaFund AI - Milestone 1 Final Presentation Guide

Project: InnovaFund AI - Enterprise AI-Powered Funding & Innovation Intelligence Platform

1. DEFAULT PRE-SEEDDED CREDENTIALS & ACCESS URLS

- **Administrator Email:** admin@researchsphere.ai
- **Administrator Password:** Admin@123456
- **Pre-Seeded Role:** Administrator (Access to Admin Console, Users Table, Audit Logs)
- **Single-Click Social Auth:** Click "Sign in with Google" or "Sign in with GitHub" on Login page
- **App Web URL:** http://localhost:5173
- **Backend Swagger API Docs:** http://localhost:8000/docs

2. MILESTONE 1 TASKS & OUTCOMES VERIFICATION (100% COMPLETE)

- **Define Objectives & Workflows:** Completed & documented in PROJECT_PLANNING.md + interactive /architecture route
- **Design Architecture & DB Schema:** Completed in SYSTEM_ARCHITECTURE.md & DATABASE_DESIGN.md (11 SQL tables + Mongo Cache)
- **UI Wireframes & Planning:** Completed in UI_UX_WIREFRAMES.md & Fortune 500 Cobalt Sky React UI
- **Setup Environments:** Completed: FastAPI Python 3.11 Backend + React 18 Vite Frontend
- **Authentication & RBAC:** Completed: JWT OAuth2 + 4 Personas (Researcher, Founder, Manager, Admin)
- **Research Profile Workflows:** Completed: Profile CRUD (/profile) for domains, keywords, citations, and title
- **Publication & Patent Datasets:** Completed: OpenAlex, CrossRef, Semantic Scholar, USPTO, Google Patents, The Lens

3. STEP-BY-STEP LIVE DEMO SCRIPT FOR EVALUATORS (5-7 MINS)

Step 1: Landing Page & AI Tour Guide (1 Min)

Show http://localhost:5173. Highlight the Fortune 500 cobalt layout, live metric counters (250M+ Papers, 140M+ Patents, \$15B+ Grants), and click "AI Platform Tour" in the top header to showcase the interactive onboarding guide modal.

Step 2: Single-Click Google SSO & Role Dashboard (1 Min)

Open /login. Click "Sign in with Google". Show instant authentication into the Role Dashboard featuring the 4-card metric row, live SVG Citation Growth Velocity chart, and Patent Distribution progress bars.

Step 3: Multi-Source Publication Search & CSV Export (1.5 Mins)

Open /publications. Search "artificial intelligence". Filter by repository (OpenAlex, CrossRef, Semantic Scholar). Click "Export Results CSV" to download paper citations.

Step 4: Global Patent Intelligence Explorer (1 Min)

Open /patents. Search "quantum computing". Toggle "Granted Only" status filter. View patent assignees, numbers, and status badges.

Step 5: Interactive System Architecture & Admin Console (1.5 Mins)

Open /architecture to demonstrate the 4-tier layer explorer & database schema. Open /admin to showcase the User Accounts table, live System Audit Logs, and click "Pre-Seed Platform Datasets". Open /settings to click "Test All Services" database pings.
